

# Helping you Leverage Technology For Your Business

## PROVIDING INDEPENDENT, CUSTOMISED I.T SOLUTIONS FOR SMALL BUSINESSES

### So, what are we offering?

**For a few hours, your own IT department and technology experts for free – no strings attached.**

- We will sit down (or walk around) with you (profusely taking notes) for an hour or so to understand your business, your current systems, your ambitions and your expectations.
- With those notes in hand, we will identify areas in your business that can be improved by simple, cost-effective, tried and tested technology solutions.
- Provide you with a plan (your technology strategy) on how we can implement those solutions on your business with the ability to measure your success in real dollar figures (no smoke and mirrors).
- Promise you not to call you and hassle you again until you call us (or not).

**Nothing to lose but a couple of hours of your time and we will do our best to make sure it's worthwhile.**

- Design and Build Websites
- Backup and Disaster Recovery
